CITY OF BEACON
FIRE DEPARTMENT
PHASE 1 FEASIBILITY STUDY OF
ALTERNATIVE SOLUTIONS FOR THE
EXISTING FIRE STATIONS

May 24, 2006

Table of Contents

Pages 1-10 – Report
Appendix A – Existing Conditions
Appendix B – Programs
Appendix C – Building Area Spreadsheets
Appendix D – Diagrammatic Plans
Appendix E – Site Development Costs
Appendix F – Site Observations
Appendix G – Aerial Views
Appendix H – Estimates

Background

On Monday, August 8, 2005 Robert Mitchell met with the City Manager Joe Braun, Fire Chief Tim Joseph and Lieutenant Tim Dexter to review current and future needs of the Fire Department. On Tuesday Mitchell returned and toured the existing three fire stations with the Chief and Lieutenant. Based on these visits and conversations, Mitchell Associates Architects (MAA) proposed to perform a feasibility study to evaluate the City's options and help the City make the wisest possible choices going forward. To that end MAA propose to perform the following tasks and evaluate the following options:

Task 1 – Perform a *Preliminary Evaluation* of the physical condition of the three existing fire stations to determine in a general sense their adaptability for renovations and/or additions. This evaluation will be general and architectural, and will not include an engineering analysis of structure or mechanical systems.

Task 2 – Develop a *User Needs Analysis* (Program) that looks forward, attempting to identify the needs of the Department for the next 25 years.

Task 3 – Using the results Tasks 1 & 2, determine if any of the three stations can accommodate an *addition sufficient to meet the forecasted need*.

Task 4 – In the event that none of the existing stations prove to be adaptable for the scale of renovations and additions indicated in Task 2, evaluate *alternative locations* for a new fire station.

This project was undertaken with the full understanding that fire protection for the City of Beacon is provided by volunteers from three independent fire companies working in conjunction with the City's career staff. With that in mind, every effort has been made to ensure that each stakeholder has full opportunity to express its positions and goals.

Specific Work Items

Item 1 - CAD Input of Headquarters and Tompkins Hose

The goal was to develop base CAD drawings to allow an examination of the possibilities for additions and renovations. Due to the severe limitations of the site for Engine #1, the Committee determined that it would not be reasonable to contemplate additions there. The City Building Department provided us with copies of blueprints from the construction of Tompkins Hose in 1980, and the renovations to Headquarters and Engine #1 in 1977. Simplified versions of these drawings were input into our CAD software and provided to the City. These files became the basis of the diagrammatic designs described below.

Item 2 - Preliminary Review of the Existing Buildings

We have visited each station, made observations and have reviewed drawings of each station. Each building has significant deficiencies ranging from life safety risks to impediments to proper fire station operation. As is to be expected, Tompkins Hose, being the newest station has the fewest problems; however, it is far from meeting current standards for a proper fire station. Both Headquarters and Engine One are completely inappropriate to be fire stations in their current condition. A summary of some of the deficiencies found is included in Appendix A.

Item 3 - Programming Process

MAA provided a programming template that was distributed to sub-committees of the programming committee for their individual input. These program committees were:

- Engine Company #1 – President of Company Mike Angeloni & Tom DiCastro, Sr.
- Mase Hook & Ladder – President of Company Jerry Antalek & Fred Antalek
- Lewis Tompkins Hose Company #1 – Vice Pres. Of Company Reverend Owen Merseur & Dennis Lahey, Sr.
- Administration – Chief Joseph & Lieutenant Dexter
- Career Staff – Tim Dexter, Jr.

Each sub-committee was made up of range of representatives, and typically had between 8 and 10 members. After a series of meetings, each sub-committee submitted a program document identifying its needs. The documents were reviewed and refined by the Committee with MAA, and spreadsheets were developed to determine the building sizes required to meet the stated needs.

The programming meetings had additional participation by:

- Fire Advisory Board – Chair Pat Kelliher, Tony Piccone & Jeff Simko
- Planning Board – Chair Jay Hibbs

MAA met with the programming committee in working sessions starting in November. Over the course of these meetings, the separate groups shared their thoughts regarding their space needs, attachment to their existing facilities, the rich history and tradition of the companies, their feelings about additions, alterations to existing facilities and construction of a new facility. The results can be summarized as follows:

- Any one of the three companies, if it were to remain alone in its own building has similar needs. The previous statement only addresses the requirements to operate the individual Company, and excludes the following:
 1. Differences in the size of required apparatus bay space (eg. Ladder vs. Pumper).
 2. The existence of a large meeting room versus a small meeting/training room.
 3. The location of Departmental offices that are distinct from the Company offices.

Item #1 (Apparatus Bays) - it is necessary to evaluate the number of pieces of apparatus to be assigned to any individual Company. Projecting 30 years the programming committee felt the Department would need to have a total of 8 bays to support the fire, rescue, EMS and support functions of the dept with no station having less than 2. This leaves a range of possibilities of from 2 to 8 pieces of apparatus in any building.

Item #2 (Meeting/Training Rooms) – Each station currently has a recreational space, but only Tompkins has a “Meeting Room.” The question is where this function will be located in the future. In the course of this study we identified the following possible arrangements:

- The large meeting room remains at Tompkins, and smaller Meeting/Training room(s) are located at one or two other stations.

- The large meeting room is relocated to a new building to house Mase & Engine #1, and the existing space at Tompkins is reduced to a smaller Meeting/Training room.
- A new central station is built with a large Meeting/Training room and the existing stations closed.

Item #3 (Departmental Offices) – Office and storage space currently available for administration of the Department is grossly deficient. Furthermore, these needs will grow over time as the State and Federal requirements for training and documentation increase. Necessary spaces include the following:

- Chief's Office
- Department Officers
- Company Chiefs
- Tour Commander/Career Officer
- Department Secretary/Receptionist
- Conference Room
- Fire Prevention
- Offices for Training, Safety and EMS
- Records Storage
- Storage for the Conference Room

The need for these spaces was discussed at length, and **there was a clear agreement within the Committee that the future needs of the Department would not be met without these physical spaces.**

The programs are attached as Appendix B

Item 4 - Summary of Programming Results

The first thing that was determined and agreed to was the basic space needs that would apply equally to any single Company. The required area was determined in the abstract, ignoring any existing available space, and becomes the groundwork for evaluating the ability of the existing buildings to meet future requirements.

Required Space if One Story – 14,550 sq ft

Required Space if Two Story – 15,900 sq ft (16,609 if at Tompkins)

Required Space if Three Story – 17,250 sq ft

Existing at Headquarters – 7,038 sq ft Required Addition – 10,212 sq ft

Existing at Tompkins Hose – 10,133 Required Addition – 6,476 sq ft

After Engine #1 was evaluated for an addition the consulting Architects determined that the topography of the site precludes building a cost effective addition.

After evaluating the required expansion for individual companies, we calculated the space requirements for various combinations of number of companies and height of the building. In each case, we included the Departmental offices in the facility. The following spreadsheet summarizes the results. The results reflect economies of having multiple companies sharing common resources, and dis-economies of multi-story facilities due to space requirements for vertical circulation and redundancies of rooms such as bathrooms, janitor's closets and utility rooms.

	One Company w/ Departmental Spaces	Two Companies w/ Departmental Spaces	Three Companies w/ Departmental Spaces
One Story			
Building Size	24,500	27,174	34,090
Apparatus Bay	5,709	5,709	9,135
Firematic Support & Mezzanine	3,339	3,765	4,790
Office & Public Area	15,452	17,701	20,165
Footprint (1)	23,300	25,974	32,890
Min Lot Size In Acres (100 cars)			1.95
Preferred Lot Size			2.45
Two Stories			
Building Size	25,870	28,544	35,460
Apparatus Bay	5,709	5,709	9,135
Firematic Support & Mezzanine	3,339	3,765	4,790
Office & Public Area	16,822	19,071	21,535
Footprint (2)	16,312	17,842	23,396
Min Lot Size In Acres (100 cars)			1.92
Preferred Lot Size			2.42
Three Stories			
Building Size	26,450	29,124	36,040
Apparatus Bay	5,709	5,709	9,135
Firematic Support & Mezzanine	3,339	3,765	4,790
Office & Public Area	17,402	19,651	22,115
Footprint (2)	14,475	15,123	20,154
Min Lot Size In Acres (100 cars)			1.76
Preferred Lot Size			2.26

Appendix C contains 11 spreadsheets (6 @ 8 ½ x 11 and 5 @ 11 x 17) that describe the existing conditions at Mase and Tompkins, and the following options:

- Basic one-company building areas
- Combinations of one, two or three companies in one building, for either one, two or three stories.
- Mase & Engine 1 located at Mase site with renovations and additions
- Tompkins hose with either one or two additional companies at Tompkins Hose site, with a new exterior skin and roof system.
- Minimal additions and renovations at Tompkins Hose with a large meeting room, with a new exterior skin and roof system.
- Minimal additions and renovations at Tompkins Hose with **no** large meeting room, with a new exterior skin and roof system.

Item 5 - Diagrammatic Block Floor Plans for up to Two Solutions and Diagrammatic Site Designs for up to Two Locations

MAA was contractually obligated to provide block diagrams floor plans and site plans for up to two solutions that would depict the conclusion of the Committee. As is so often the case in the real world, many more opportunities presented themselves, and we felt it was appropriate to evaluate them by means of a drawing. Appendix D contains the following drawings:

- L1 – 3 companies plus Departmental offices, 1 story, back-in, on a tight site
- L2 – 3 companies plus Departmental offices, 2 stories, back-in, on a tight site
- L3 – 3 companies plus Departmental offices, 3 stories, back-in, on a tight site
- L4 – 3 companies plus Departmental offices, 1 story, drive-thru, on an optimal site
- L4A – 3 companies plus Departmental offices, 2 stories, drive-through, on a tight site
- L5 – Mase & #1, plus Departmental offices & large meeting, new 2 stories on a tight site
- L6 – Mase & #1, plus Departmental offices, **no** large meeting, new building, 2 stories on a tight site
- L7 – Mase & #1, plus Departmental offices & large meeting, renovation of Mase w/ addition located on site of former City Hall, 3 stories on a tight site
- L8 – Mase & #1, plus Departmental offices, no large meeting, renovation of Mase w/ addition located on site of former City Hall, 2 stories on a tight site
- L9 – Mase alone, renovation w/ addition, 3 stories on its current, tight site
- L10 & 11 – 3 companies plus Departmental offices & large meeting, renovation of Tompkins w/ addition, 2 stories on its current tight site
- L12 & 13 – Tompkins and Mase plus Departmental offices & large meeting, renovation of Tompkins w/ addition, 2 stories on its current tight site
- L14 & 15 – Tompkins alone & large meeting, renovation of Tompkins w/ addition, 2 stories on its current tight site
- L16 – Engine #1 alone, 2 stories, on the current parking lot site w/ acquisition of the adjacent house
- L17 – Acquisition of the Brandley Dye Works, with renovations and additions

Item 6 - New Site Requirements

As shown in the spreadsheet above, and in diagrams L1 through L17, the new site requirements vary greatly, based on what combination of companies is going to occupy the site. For a new building, housing all firematic functions, the required area varied from just under 2 acres for a 3

story building with adequate parking spaces to just under 3 acres for a 1 story building with 100 parking spaces and recreation/expansion space.

Item 7 - Review of Alternative Prospective Sites

On 2/27/06 Chief Joseph and Lieutenant Dexter brought me to see 13 locations being considered by the Committee. These locations are:

1. South Avenue Park
2. The Elks Club
3. Sargent School Access Road, West Side
4. Sargent School Access Road, East Side
5. Former Ski Lodge
6. Left of, and adjacent Madame Brett
7. Memorial Park
8. Chem Prene
9. Adjacent City Hall
10. North Cedar Street
11. Old DMV site on Main Street
12. Brandley Dye Works
13. 578 Main Street

The properties range from easily developed, well located parcels such as Memorial Park to tight sites such as Liberty/East Main and North Cedar, to politically challenging sites such as DMV and Madame Brett (both of which are also small), to sites at the edge of the response area such as the former ski lodge and Chemprene. The land adjacent City Hall falls steeply from 9D and would be extremely expensive to develop. The Sargent School access road and Elks Club sites proximity to children is a challenge. 578 Main has potentially high demolition costs and appears to be below the flood plain.

Finally, there is the Brandley Dye works. This parcel offers a unique opportunity to rejuvenate and stimulate investment in an area of great potential. It offers significant architectural opportunities that can stimulate investors to make the types of property improvements that will have great and long lasting positive impact on the City.

Further documentation regarding the incremental site development costs is included as Appendix E, our observations regarding the sites are included as Appendix F, and aerial views are included as Appendix G.

Item 8 - Preliminary Budgets of Alternative Solutions

Instead of the two budget figures proposed in the original scope of work attached are 6 detailed Conceptual Budgets. These are for the following:

- Three companies, 2 stories on a tight site (L2)
- Mase & Engine #1, 1 story new construction on a tight site (L5)
- Mase & Engine #1, renovation plus 2 story addition, but no large meeting room (L8)
- Tompkins alone, with minor additions, keeping the large meeting room (L14 & 15)
- Engine #1 alone, 2 story, across from its current site (L16)
- Brandley Dye Works additions and renovations (L17)

In addition, we have provided a preliminary evaluation of the incremental site development costs relative to the “base” site development cost, which is based on Memorial Park.

INCREMENTAL SITE DEVELOPMENT COSTS

ITEM	DESCRIPTION	AMOUNT
1	SOUTH AVE PARK	\$50,000
2	ELKS CLUB	\$25,000
3	COMBINED SARGENT SITES	\$150,000
4	SARGENT SITE 1 ALONE	\$250,000
5	SARGENT SITE 2 ALONE	\$425,000
6	MEMORIAL PARK	NO UNUSUAL COSTS ASSOCIATED WITH THIS SITE
7	CHEM PRENE	\$125,000
8	CITY HALL	\$500,000
9	BRANDLY DYE WORKS	\$75,000
10	578 MAIN	\$100,000
11	SKI LODGE	NO UNUSUAL COSTS ASSOCIATED WITH THIS SITE

The results of the budget analysis are as follows:

Option	Notes	Gross Hard Cost	Gross Square Footage	HardCost Per Square Foot
THREE COMPANIES, 2 STORIES, TIGHT SITE – L2	New building on a new site	\$7,479,600	35,424	\$211.14
THREE COMPANIES, 1 STORY, TIGHT SITE – L1 (*)	New building on a new site	\$6,903,785	33,677	\$205.00
MASE & ENGINE #1, 1-STORY ON A TIGHT SITE – L-5	New building on a new site	\$6,335,500	26,761	\$236.74
MASE & ENGINE #1 WITHOUT LARGE MEETING ROOM - L8	Renovation & addition at Mase, (requires acquisition & demolition of old City Hall)	\$6,109,600	23,087	\$264.63
TOMPKINS HOSE ALONE WITH MINOR ADDITIONS - L-14, L-15	Has only small Training Room	\$2,782,900	13,030	\$213.58
TOMPKINS HOSE ALONE WITH MINOR ADDITIONS - L-14, L-15	Has large Meeting Room	\$3,338,500	16,163	\$206.55
ENGINE #1 ONLY, 2-STORY WITH PROGRAM ADDITIONS - L-16	New building on site across from existing station - purchase of adjacent house site	\$3,838,500	14,550	\$263.81
BRANDLEY DYE WORKS CENTRAL STATION FOR THREE COMPANIES L-17	Renovations & Additions at the Brandley Dye Works	\$7,479,800	35,680	\$209.64

(*) This cost was extrapolated by the Architect from data supplied by the Estimator.
The costs estimates are included as Appendix H.

Soft Costs, Land Costs and Income and Tax Revenue from the Sale of Existing Properties

In addition to the hard construction costs, the project will incur “soft costs” in the order of magnitude of \$1,100,000 to \$1,250,000. Soft costs include professional fees (architect, engineer, surveyor, geotechnical, accounting, legal, etc.), Clerk-of-the-works, testing, insurance, bonding costs, furniture, furnishings, fit up, equipment, etc.

As is certainly clear, some of the sites being reviewed will need to be acquired.

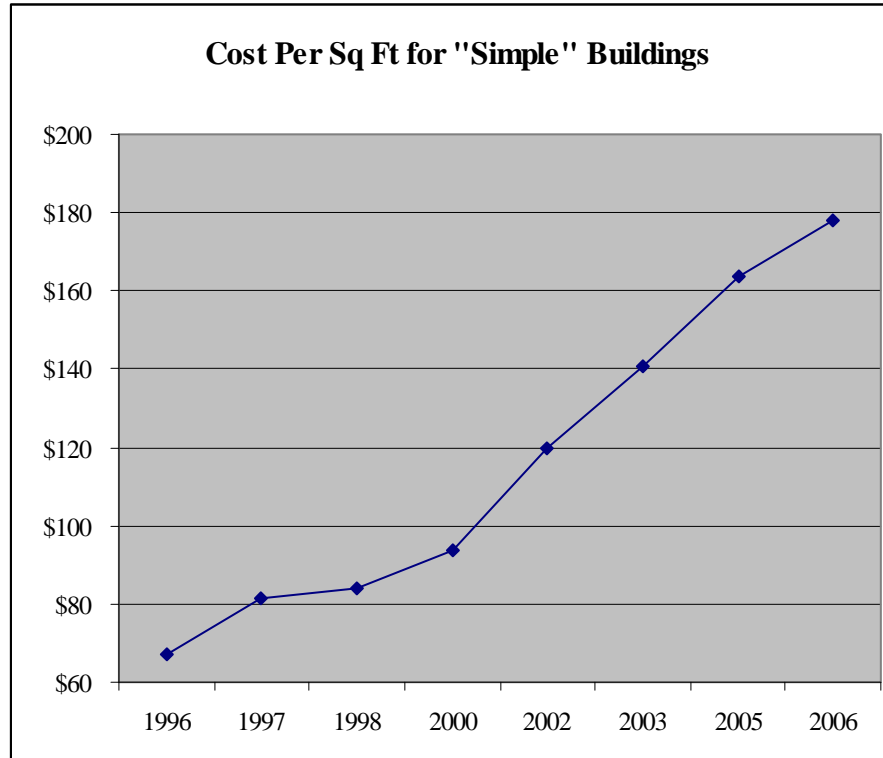

Based on which buildings are sold, the Committee has offered a complete guess that property sale income could be in the range of \$1,500,000. Of course, this assumption needs to be evaluated by means of building appraisals.

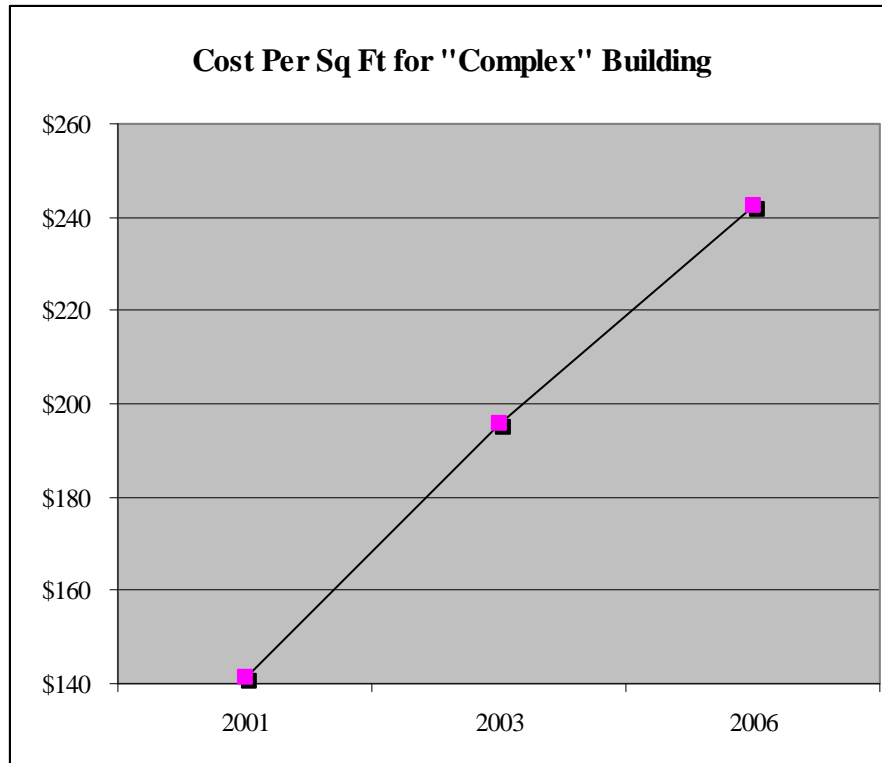

Sale of the existing fire stations would place those properties on the tax rolls.

Costs Associated with Phasing or Delay

The rate of growth in the cost of construction is far outstripping inflation in general.

The following two graphs compile this Architects experience over the past decade:

These graphs indicate an average cost growth of approximately 11.5%, well more than the 3-4% growth rate of the economy at large. You can clearly see that the graph is steeper in recent years. At an 11.5% growth rate, the cost of construction will increase 75% over the next 5 years. One might argue that this rate of growth is unsustainable. That may be so, but assuming that prices will flatten out is to deny the history of the past decade.

One scheme that was looked at by the Committee involved providing a new facility for Mase & Engine #1 now, and postponing renovation of Tompkins for five years. The costs difference would be as follows:

Build a new facility for three stations now:	\$7,479,800
Phase project over five years	
Building a new station for Mase, Engine #1, and Administration now	\$6,757,500
Renovating Tompkins in five years (\$2,782,900 Growing at 11.5%/anum)	\$4,870,075
Total Cost for Phased Project	\$11,627,575
Cost Savings for Building Entire Project Now	\$4,147,775

Architects Observations and Committee Recommendations

A central station for three companies costs in the range of \$7,500,000.

Combining Mase and Engine #1 in one facility with Administration, with Tompkins remaining in its current facility (renovated) costs on the range of \$9,540,400. Furthermore, a site would have to be found to house Mase, Engine #1 and Administration.

We explored the possibility of combining all three companies at the Tompkins Hose site. Drawings L10 and L-11 show that it is physically possible to place a large enough building on the site. However, the same drawings also show that the required shape and massing of the buildings to achieve this are extremely inefficient and expensive.

In order to have each company maintain separate quarters that meet the requirements stated in the program, the following expenses would be incurred:

- Mase in a new building - \$3,433,800
- Tompkins with renovations and additions - \$2,782,900
- Engine #1 in a new building - \$3,838,500
- Administrative Space added to Mase (11,320 sq ft) - \$2,377,200

This results in a total cost of \$12,432,400. Furthermore, the Mase & Engine would require acquisition of land.

If, as seems to this consultant and the Committee, the idea of the central station is compelling, and the City opts for a new building, then it remains to evaluate the alternative sites.

- Memorial Park is well suited from the point of view of location and topography.
- South Avenue Park is well situated, and may work well for a central station. Further analysis is needed to be absolutely sure
- The Elks club site is well suited from the point of view of location and topography, subject to the evaluation of its proximity to the school. We believe that acquisition of the Elks building would be the correct way to use this site.
- Using the two Sargent sites, with the station on the West side and parking on the East side would work well physically. The proximity to the school needs to be evaluated.
- Chem Prene and the Ski Lodge are not well located with the response area.
- The topography of the property adjacent the City Hall is a distinct disadvantage.
- The remainder of the sites that were considered are, in the Architect and Committee's opinions, too small.

The Brandley Dye works offers an unusual opportunity for the City to generate significant revitalization in an area of great potential. The construction cost is comparable to a new building; however the City would need to obtain the property.

Appendix A - Existing Conditions

Tompkins Hose

Life Safety & Accessibility

- Lack of sprinkler violates code
- Questionable make-up air
- Egress not ADA or ANSI compliant
- Vertical circulation not ADA or ANSI compliant
- Bathrooms not ADA or ANSI compliant
- No egress window in bunk room
- 80 foot long dead end corridor exceeds code
- Single means of egress violates code
- Stair rail openings violate code
- The two sets of egress doors that lead out of the large room in the lower level open over a 12" step to grade.
- Kitchen hood side overhangs do not meet code
- Lack of tailpipe fume exhaust violates NFPA 1500
- Upstairs cooking is in egress corridor

Energy & Mechanicals

- The main floor has two heating systems. Hot water baseboard around the west exterior walls which is supplemented by a roof mounted electric heating unit that provides forced hot air to all the interior offices and the ready room. This cannot be very energy efficient.
- Low R-value in roof

General

- Grossly inadequate storage
- The main roof was replaced about 6 years ago (epdm) but still leaks
- The EIFS is damaged in a number of places around the bldg.
- Rotted exterior hollow metal door frames
- Structural shifting in wall to balance of building
- No console in radio room
- Inadequate office space
- Kitchen ventilation is questionable

Apparatus Bay

- Inadequate clearance between trucks & side walls
- No general ventilation
- Apparatus floor is very slippery when wet due to the finish.
- Openings to balance of building are not rated
- Inadequate firematic storage

Mase

Life Safety & Accessibility

- Lack of sprinkler violates code
- Egress not ADA or ANSI compliant
- Vertical circulation not ADA or ANSI compliant
- No elevator
- Stair rail openings violate code
- Uncovered fire escape
- Basement egress is does not meet code
- Wood frame is not fire protected
- Electrical panel room violates code
- No egress window in bunk room
- Bathrooms not ADA or ANSI compliant
- Only one women's room – located on 2nd floor
- Inadequate ventilation & fresh makeup control
- Combustible surfaces adjacent cook top
- Loose wires dangling
- Kitchen hood does not comply with code
- Openings from apparatus bay to balance of building are not rated
- Basement 3'-8" corridor width does not allow ANSI compliance
- Main floor 4'-0" corridor width does not allow ANSI compliance
- Many of the windows have broken counterbalances.

Energy & Mechanical

- No wall insulation
- Some single glazed windows
- The double glazed units are 3/8" and some have lost their seals
- Window weather stripping is inadequate & worn
- Heating control is very rudimentary & does not work properly
- Electrical service is undersized
- No A/C on 1st or 3rd floor
- Company owned A/C on 2nd floor

General

- Grossly inadequate storage
- Floor tiles are peeling
- Inadequate laundry facilities
- Exterior window sills are deteriorating
- Joints in copper cornice are failing
- Rear parapet wall is failing

Apparatus Bay

- Inadequate clearance between trucks & side walls
- No general ventilation
- Inadequate firematic storage

Engine #1

Life Safety & Accessibility

- Lack of sprinkler violates code
- Egress not ADA or ANSI compliant
- Vertical circulation not ADA or ANSI compliant
- No elevator
- Stair rise exceeds code
- Stair width below code
- Stair rail openings violate code
- Basement stairs are a hazard
- Apparatus floor is located over occupied space. In event of fuel leakage, fuel would enter occupied space.
- Uncovered fire escape
- Basement egress to rear is illegal
- Wood frame is not fire protected
- Electrical panel room violates code
- Bathrooms not ADA or ANSI compliant
- ANSI clearance issues at most doors
- Only one women's room – located on 2nd floor
- Kitchen hood does not comply with code
- Openings from apparatus bay to balance of building are not rated

Energy & Mechanical

- No wall insulation
- Some single glazed windows
- The double glazed units are 3/8" and some have lost their seals
- Window weather stripping is inadequate & worn
- Heating control is very rudimentary & does not work properly
- Electrical service is undersized
- No A/C on 1st or 2nd floor – window units only
- Company owned A/C in bsmt
- Sewer line backs up

General

- Grossly inadequate storage
- Walls are peeling
- Floor tiles are peeling
- Inadequate laundry facilities
- Exterior window sills are deteriorating
- Windows leak – water is damaging interiors

Apparatus Bay

- Inadequate clearance between trucks & side walls
- Doors are too small
- No general ventilation
- Inadequate firematic storage
- Walls are peeling

- B8.1. Type: **Company**; size: **30**; frequency: _____
 - B8.2. Type: **Banquets**; size: **40**; frequency: **Annual**
- B9. Social Life:
- B9.1. Daily recreation – describe: **Pool Table, darts and television**
 - B9.2. Periodic recreation – describe: **Occasional parties, i.e. parade, Super Bowl and Christmas Party**
 - B9.3. Outdoor recreation – describe: **Outdoor cooking, picnicking and horseshoes**

B10. Access control:

B10.1. Electronic access: **Yes**

B10.2. Vendor's access to drop off material: **Yes**; Where: **necessary**

B10.3. Will other fire companies park their apparatus in the bay under certain circumstances: **Yes**

.10.3.1. Describe: **Mutual Aid**

.10.3.2. Is their access to the building to be limited: **No**

<h2>APPARATUS</h2>

1 Apparatus Bays

1.1 Number of vehicles: **Currently 1, wants 2**; # of bays: **2**

1.1.1 Name: _____ ; type: **Pumper** ; length: _____ ; weight: _____

1.2 Type of bays:

1.2.1 Drive-through: **Yes**; quantity: **2**

1.3 Overhead doors: **Sufficient for Future Apparatus Requirements**

1.4 Gear lockers: **Volunteer gear is in cars, need place to hang gear when in house**

1.5 Number of gear lockers - now: **10**; later: **10**

1.6 Wall mounted hose reels: **As required for cleaning apparatus**

1.7 Fume exhaust: **Yes**

1.8 Truck fills:

1.8.1 Wall hydrant: **Yes**; Quantity: **2**

1.8.2 Outdoor hydrant: **Yes** ; Quantity: **Minimum 1**

1.9 Overhead electrical drops: **Yes** ; Quantity: **2**

1.10 Overhead airdrops: **Yes** ; Quantity: **2**

1.11 Compressed air for tools: **Yes**

1.12 Sinks: **Yes (1)** ; Where: **In bay**

1.13 Drench shower: **Yes**; Where: **isolated area** (Note Decon Laundry!)

1.14 Lockable storage cabinets: **Yes** ; size: **4 – 3 x 6**

1.15 Foam: **Yes**

1.15.1 Details: **Adjacent bay**

1.16 Epoxy flooring: **Yes**

FIREMATIC SUPPORT

1A Mezzanine

1A.1 Storage: **Firematic material, old hose, cots, etc.**

1A.2 Size: **1200** sq ft

2 Firematic Storage Room

2.1 Use: **Officer's Supply Closet**

2.2 Security: **??**

2.3 Size: **10 x 10**

2.4 Adjacencies: **Bay**

3 Officer's Supply Room

3.1 Use: **Radios, etc.**

3.2 Security: **Yes**

3.3 Size: **8 x 8**

3.4 Adjacencies: **Bay**

4 EMS Storage Room

4.1 Use: **EMS supplies**

4.2 Security: **????**

4.3 Size: **8 x 8**

Fire Station Program Document

Project Name: Beacon Fire Department - *Shared Functions* (based on Chief, Lieutenant & Career Comments)

Program Meeting Date: 11/10/05, 11/29/05

Printout Date: December 19, 2005

Filename: Shared Spaces Program.doc

A General Information

- A1. Number of Members; total: **85**; active: **85**; female: **2**; male: **83**
- A2. Typical Turnout: **25**
- A3. On-Call: **0**
- A4. Type of entity: **City Department**
- A5. **3 Companies**
 - A5.1. **Beacon Engine #1**
 - A5.2. **Tompkins Hose Company #1**
 - A5.3. **W.H. Mase Hook and Ladder Co #1**
- A6. Date of Company monthly meeting: **first Tuesday**; Date of Dept monthly meeting: _____
- A7. Location: **All three stations**

B Functional Activities in Building

- B1. Types of response: All Three Stations
 - B1.1. Fire: **Yes**
 - B1.2. EMS: **Yes**
 - B1.3. Heavy Rescue: **Yes**
 - B1.4. HAZ MAT: **Yes**
 - B1.5. Water Rescue: **Yes**
 - B1.6. Ambulance? ; Transporting?
 - B1.7. **To be a secondary EOC**
- B2. Training activities in building:
 - B2.1. **Yes, class and hands on**
 - B2.2. Training activities on site: **If Possible**
 - B2.3. Other uses of apparatus bay:
 - B2.4. Social events: **no**
 - B2.5. Craft fairs: **no**
 - B2.6. Sleeping Over: **no**

- B3. Standing by:
 - B3.1. Daily: **Yes**
 - B3.2. Emergency: **Yes**
 - B3.3. Outsiders: **Yes**
- B4. Emergency Shelter: **Not as primary possibly as secondary for firefighters**
 - B4.1. Who stays in building: **Paid staff, 1 per station on a regular basis**
 - B4.2. Special needs: **Bunk room, bath, storage space**
- B5. Firematic Business:
 - B5.1. Describe: ? **Yes**
- B6. Social Business:
 - B6.1. Describe: **Fire Company Activities**
- B7. Other:
 - B7.1. Describe:
- B8. Meetings:
 - B8.1. Type: **Each Company Meeting**; size: **30-40 people**; frequency: **Monthly**
 - B8.2. Type: **Committees**; size: **10-20 people**; frequency: **Varies**
- B9. Social Life:
 - B9.1. Daily recreation – describe: **TV, Pool Table**
 - B9.2. Periodic recreation – describe: **Various parties**
 - B9.3. Outdoor recreation – describe: **No**
- B10. Misc. Activities
 - B10.1. **Blood drives**
 - B10.2. **Community meeting room**
- B11. Access control:
 - B11.1. Electronic access: **Yes**
 - B11.2. Vendor's access to drop off material ?; Where: _____
 - B11.3. Will other fire companies park their apparatus in the bay under certain circumstances: **Yes**
 - .11.3.1. Describe: **under mutual aid for coverage to City of Beacon**
 - .11.3.2. Is their access to the building limited: **Yes**
 - .11.3.3. Describe: **Access to bays and communication room**

C Site

- C1. Who owns the road in front: **City**
- C2. Number of primary responder parking spaces needed: **10 per station**
- C3. Number of other parking spaces needed: **50 per station**
- C4. Recreation requirements (Pavilion, grill, patio, etc.): **yes, at all stations**
- C5. Utilities at site:
 - C5.1. Water: **Yes**; Size: _____
 - C5.2. Sewer: **Yes**; Size: _____
 - C5.3. Storm: **Yes**; Size: _____

- C5.4. Electric: **Yes**; 3 phase: _____
- C5.5. Gas: **Yes**; Size: _____
- C5.6. Phone: **Yes**
- C5.7. Cable: **Yes**
- C6. Electric company: **Central Hudson**
- C6.1. Contact: _____
- C6.2. Follow-up assigned to: _____
- C7. Gas company: **Central Hudson**
- C7.1. Contact: _____
- C7.2. Follow-up assigned to: _____
- C8. Telephone company: **Verizon**
- C8.1. Contact: _____
- C8.2. Follow-up assigned to: _____
- C9. Cable company: **Cablevision**
- C9.1. Contact: _____
- C9.2. Follow-up assigned to: _____
- C10. Alarm/Security company: **None**
- C10.1. Contact: _____
- C10.2. Follow-up assigned to: _____

APPARATUS

1 Apparatus Bays

Fire Station Program Document

Project Name: City of Beacon Fire Department – Mase H & L

Program Meeting Date: 11/10/05

Printout Date: March 12, 2015

Filename: HDQTRS - Mase H & L.doc

When answering questions, indicate what you want in the future, not what you currently have.

A General Information

- A1. Number of Members; total: **100** ; active: 29 ; female: **0**; male:29
- A2. Typical Turnout: _____
- A3. On-Call: _____
- A4. Board Members:
- A4.1. **Jerry Antalek - President**
 - A4.2. **Dale Antalek – Vice President**
 - A4.3. **Tim Joseph - Chief**
 - A4.4. **Chuck Pisanelli - Captain**
- A5. Building Committee:
- A5.1. **Chuck Pisanelli**
 - A5.2. **Jerry Antalek**
 - A5.3. **Matt Naughton**
 - A5.4. **Dustin James**
 - A5.5. **Brian Smith**
 - A5.6. **Matt Dubetty**
 - A5.7. **Terry Davis**
 - A5.8. **Mike Frederic**
 - A5.9. **Lou Amoroso, Jr.**
- A6. Type of entity:
- A6.1. Municipality: **Beacon** Type: **City**
- A7. Number of Companies or Departments involved: **3**
- A7.1. Names: **Headquarters**
 - A7.2. **Station 1**
 - A7.3. **Station 2**
- A8. Date of District monthly meeting: _____; Date of Company monthly meeting: **1st Tuesday**

B Functional Activities in Building

B1. Types of response:

- B1.1. Fire: **X**
- B1.2. EMS: **X**
- B1.3. Heavy Rescue: **No**
- B1.4. HAZ MAT: **X**
- B1.5. Water Rescue: **No**
- B1.6. Ambulance: **No**; Transporting _____

B2. Training activities in building: (Future) We need a location to conduct hands on training

- B2.1. **Search & rescue in basement and ground (Current)**
- B2.2. **Ladders on exterior of Building – Films (Current)**

B3. Training activities on site:

- B3.1. **None**

B4. Other uses of apparatus bay:

- B4.1. Social events: **X**
- B4.2. Craft fairs: **No**
- B4.3. Other: **No**
- B4.4. Sleeping Over: **No**
- B4.5. Short term: **No**
- B4.6. Long term: **No**

B5. Meetings:

- B5.1. Type: **Company Meeting** ; size: **20/meeting** ; frequency: **Once per month**

B6. Social Life:

- B6.1. Daily recreation – describe: **Exercise – Gym equipment on 3rd floor**
- B6.2. Periodic recreation – describe: **Christmas Party and Banquet**
- B6.3. Outdoor recreation – describe: **Softball, Family Day and Day of Golf**

B7. Access control:

- B7.1. Electronic access: **Need**
- B7.2. Vendor's access to drop off material: **Limited**; Where: **Lobby – Pepsi Soda**
- B7.3. Will other fire companies park their apparatus in the bay under certain circumstances: **Yes**
 - .7.3.1. Describe: **Rombout FD Tower – Their ladder doesn't fit currently**
 - .7.3.2. Is their access to the building to be limited: **Yes**
 - .7.3.3. Describe: **First Floor Only**

APPARATUS

1 Apparatus Bays – Bay is too small – no room to get around the truck. No work bench or storage for gear/equipment

- 1.1 Number of vehicles: **1**; # of bays: **1**
 - 1.1.1 Name: **33-45** ; type: **Tower Ladder**; length: **48'** ; weight: **80,000 lbs**
- 1.2 Type of bays:
 - 1.2.1 Double deep: **X** ; quantity: **1**
- 1.3 Wash bay: _____ ; Where: **Need a wash area in bay**
- 1.4 Plan for future expansion of bays: _____ # _____
- 1.5 Overhead doors: **Sufficient for Future Apparatus Requirements**
- 1.6 Pedestrian doors:
 - 1.6.1 Number: **2**
 - 1.6.2 Locations: **Front /Rear**
- 1.7 Number of gear lockers: _____ ; now: **4** ; later: **Need at least 20**
 - 1.7.1 Location: **In Bay**
- 1.8 Signage requirements: _____
- 1.9 Trench drains: _____ ; Layout: _____
- 1.10 Wall mounted hose reels: _____ ; Quantity: _____
- 1.11 Fume exhaust: **X** ; Type: _____ ; Later: _____
- 1.12 Truck fills: **Not Needed**
 - 1.12.1 Wall hydrant: **Yes** ; Quantity: _____
- 1.13 Overhead electrical drops: **Need** ; Quantity: _____
- 1.14 Overhead airdrops: **Need**; Quantity: _____
- 1.15 Compressed air for tools: **Need**
- 1.16 Sinks: **X** ; Where: **In Bay – Need upgrade**
- 1.17 Drench shower: _____ ; Where: _____ (Note Decon Laundry!)
- 1.18 Lockable storage cabinets: **Need Storage for equipment**
- 1.19 Foam: _____
 - 1.19.1 Details: _____
- 1.20 Other equipment: _____

- 1.21 Epoxy flooring: _____
- 1.22 Wall construction type: _____
- 1.23 Assumed size: _____
- 1.24 Adjacencies: _____

FIREMATIC SUPPORT

1A Mezzanine – Not feasible for current building – Would like one

1A.1 Size: _____ x _____ ; or _____ sq ft

2 Firematic Storage Room

2.1 Use: **Officer's Supply Closet**

2.2 Security: **??**

2.3 Size: **16 x 16**

2.4 Adjacencies: **Bay**

3 Officer's Supply Room

3.1 Use: **Radios, etc.**

3.2 Security: **Yes**

3.3 Size: **6 x 6**

3.4 Adjacencies: **Bay**

4 EMS Storage Room

4.1 Use: **EMS supplies**

4.2 Security: **????**

4.3 Size: **8 x 8**

4.4 Adjacencies: **Bay**

5 Engineers Work Room

5.1 Mechanic: _____ ; Type of work: _____

5.2 Workbench: **Yes**

5.3 Tool storage: **Yes**

5.4 Stationary power tools: **bench grinder & vise**

5.5 Air: **Yes**

5.6 Water: **Yes**

5.7 Size: **16 x 20**

6 DeCon/Laundry

6.1 Sink(s): _____ ; Foot Pedal: _____

6.2 Gear washer/extractor: **Need**

6.3 Gear dryer: **Need**

6.4 Clothes washer & dryer: **Yes in basement**

6.5 Ventilated gear racks: **Yes - Need**

- 6.6 Drench shower: _____ ; Where: _____
- 6.7 Backboard/Etc. cleaning: _____
- 6.8 Holding tank: _____
- 6.9 Size: _____ x _____ ; or _____ sq ft
- 6.10 Comments/Adjacencies: **No location for Decon Equipment - Need**

7 Hazardous Waste Disposal – Need – Don’t have it now

- 7.1 Location: _____
- 7.2 Size: _____ x _____ ; or _____ sq ft
- 7.3 Comments: _____

8 Oxygen Storage Room - ?

- 8.1 Size: _____ x _____ ; or _____ sq ft
- 8.2 Adjacencies: _____
- 8.3 Comments: _____

Hose Storage – Not Needed – All hose at Engine Stations

9 Apparatus Floor Rest Rooms

- 9.1 Quantity: **1**
- 9.2 Fixture: **Sink, toilet & urinal? Yes**
- 9.3 Showers: **No**
- 9.4 Lockers: **No**
- 9.5 Other: _____
- 9.6 Comments: **Same as public and career rest room**
- 9.7 Adjacencies: _____

10 Radio Room –Need larger room and technology upgrade

- 10.1 Location: **Adjacent to Apparatus Room**
- 10.2 View control: **Window to Apparatus Room**
- 10.3 Seating for how many: **3**
- 10.4 Door operator switches: **Yes**
- 10.5 Traffic device control: **Yes**
- 10.6 Light switches for app bay: **Yes**; Outside: _____
- 10.7 Internal paging system: **Yes**
- 10.8 Siren trigger: _____ ; Shutoff: _____ ; Siren location: _____
- 10.9 Computer equipment: **Yes**
- 10.10 Other equipment: **Chargers**
- 10.11 File cabinets: Yes ; Describe: _____
- 10.12 Wall mounted items: **Bulletin Board, Clock and map**

- 10.13 Rechargeable items (flashlights, plectrons): **Yes**
- 10.14 Lockable storage: _____
- 10.15 Size: **147** sq ft
- 10.16 Adjacencies: _____

* CAD system only functional at HQ – needs to be at St 1 and St. 2

* Need new computers and technology and space

ADMINISTRATION

11 Firefighter's Lobby – Same as Public

- 11.1 Size: _____ x _____ ; or _____ sq ft
- 11.2 Comments: **Could be larger**
- 11.3 Adjacencies: _____

12 Conference Room

- 12.1 Uses:
 - 12.1.1 **Training for up to 25 people**
 - 12.1.2 **Small meetings**
- 12.2 Seat how many: **12** at table; **18** at wall
- 12.3 Is there a workstation with a computer to be shared by all users: **Yes**
- 12.4 Size: **377** sq ft
- 12.5 Comments: **Furniture convertible from conference to classroom, drop down projector & screen**
- 12.6 Adjacencies: _____

13 Active Officers

- 13.1 Seat how many: **4**
- 13.2 Is there a workstation with a computer: **2 or more**
- 13.3 Size: **233** sq ft
- 13.4 Comments: _____
- 13.5 Adjacencies: _____

14 Civil Officers

- 14.1 Seat how many: **4**
- 14.2 Is there a workstation with a computer: **2 or more**
- 14.3 Size : **233** sq ft
- 14.4 Comments: _____
- 14.5 Adjacencies: _____

15 Records Storage

- 15.1 Location: **Near Office**
- 15.2 Size: **100** sq ft
- 15.3 Comments: _____
- 15.4 Adjacencies: _____

16 Uniform Storage

- 16.1 Location: _____
- 16.2 Size: **80** sq ft
- 16.3 Comments: **50 uniforms = 20 ft of pole, plus 50 hats**
- 16.4 Adjacencies: _____

FIREFIGHTERS

17 Firefighters' Rest Rooms

- 17.1 Showers: **1 – 3rd Floor**
- 17.2 Lockers: **4 – in Bay**
- 17.3 Other: _____
- 17.4 Comments: **Need locker room /showers**
- 17.5 Adjacencies: _____

18 Firefighter's Recreation Room

- 18.1 Number of chair seating: **20**
- 18.2 Couch: **Yes** ; seats how many: **6**
- 18.3 TV: **Yes** ; Size: _____
- 18.4 Card table: **Yes**; how many: **2**
- 18.5 Coffee maker: **Yes**
- 18.6 Microwave: **Yes**
- 18.7 Popcorn maker: _____
- 18.8 Bulletin board: **Yes** ; Size: **4 X 6**
- 18.9 Bar: **Yes**
 - 18.9.1 Length: _____ ; seats: **12**
 - 18.9.2 Beer cooler: **Yes** ; Size: _____
 - 18.9.3 Sink: **Yes**; Size: **double**
 - 18.9.4 Cold drinks: **Yes** ; Handled how: **cans**
- 18.10 Ice machine: **Yes** ; Size: **400 lbs**
- 18.11 Size: **749** sq ft

18.12 Adjacencies: _____

18.13 Comments: _____

19 Volunteer Firefighters Day Room (Same as Paid Day Room???)

19.1 Kitchen/Kitchenette: **Kitchenette**

19.1.1 Size: _____ x _____ ; or _____ sq ft

 - B1.4. HAZ MAT: **X**
 - B1.5. Water Rescue: **X**
 - B1.6. Ambulance: _____ ; Transporting _____
- B2. Training activities in building:
 - B2.1. **All classroom and some firefighting (ex. Search & rescue)**
- B3. Training activities on site:
 - B3.1. **Very limited**
- B4. Other uses of apparatus bay:
 - B4.1. Social events: **No**
 - B4.2. Craft fairs: **No**
 - B4.3. Other: **No**
 - B4.4. Sleeping Over: **No**
 - B4.5. Short term: **No**
 - B4.6. Long term: **No**
- B5. Standing by :
 - B5.1. Daily: **No**
 - B5.2. Outsiders: **Standby Only**
- B6. Emergency Shelter:
 - B6.1. Who stays in building: **Standby Crews**
 - B6.2. Special needs: **No Quarters for Standby-By Fireman**
 - B6.3. Special storage: **None available at this time**
- B7. Firematic Business:
 - B7.1. Describe: **F.D. Secretary, Fire Prevention Office (No Office or Storage)**
- B8. Social Business:
 - B8.1. Describe: **1 Civil Officers Office for all Civil Officers**
- B9. Meetings:
 - B9.1. Type: **Company** ; size: **Approx. 50** ; frequency: **Monthly**
 - B9.2. Type: **Department** ; size: **Approx. 100** ; frequency: **Quarterly**
- B10. Social Life:
 - B10.1. Daily recreation – describe: **TV Room Only**
 - B10.2. Periodic recreation – describe: **Party's approximately 200 max occupants**
 - B10.3. Outdoor recreation – describe: **None**
- B11. Misc. Activities
 - B11.1. **Fund Raisers**
- B12. Access control:

- B12.1. Electronic access: **Keyless entry**
- B12.2. Vendor's access to drop off material: _____ ; Where: **Lobby only**
- B12.3. Will other fire companies park their apparatus in the bay under certain circumstances: _____
- .12.3.1. Describe: **Yes – only for stand-by. No extra bays**
- .12.3.2. Is their access to the building to be limited: **Yes**
- .12.3.3. Describe: **Must have someone present to open doors and must have free space in bays**

C Site

- C1. Who owns the road in front: **State, County, Town - TOWN**
- C2. Traffic control:
- C2.1. Needs to be created: **X** ; Agency involved: _____
- C3. Number of primary responder parking spaces needed : **25-70**
- C4. Number of other parking spaces needed: **75-100**
- Recreation requirements (Pavilion, grill, patio, etc.): **Pavilion, grilling area, horseshoe & pits**

APPARATUS

1 Apparatus Bays

- 1.1 Number of vehicles: **3** ; # of bays: **3**
- 1.1.1 Name: **Engine**; type: _____ ; length: _____ ; weight: _____
- 1.1.2 Name: **Engine** ; type: _____ ; length: _____ ; weight: _____
- 1.1.3 Name: **Rescue** ; type: _____ ; length: _____ ; weight: _____
- 1.2 Type of bays: (**Needed – Extra Bays for Washing Boat and ATV**)
- 1.2.1 Single deep: **X**; quantity: **3**
- 1.3 Wash bay: **None**; Where: _____
- 1.4 Plan for future expansion of bays: **No # Needed**
- 1.5 Overhead doors: **Sufficient for Future Apparatus Requirements**
- 1.6 Pedestrian doors:
- 1.6.1 Number: **2**
- 1.6.2 Locations: **1 Interior and 1 Exterior**
- 1.7 Number of gear lockers: **0**; now: **0** ; later: **Needed**
- 1.7.1 Location: _____
- 1.8 Signage requirements: _____
- 1.9 Trench drains: _____ ; Layout: _____
- 1.10 Wall mounted hose reels: **None**; Quantity: _____
- 1.11 Fume exhaust: **Yes**; Type: **Ceiling**; Later: _____
- 1.12 Truck fills:
- 1.12.1 Overhead: **X** ; Quantity: **2**

- 1.12.2 Wall hydrant: **X**; Quantity: **1 - outside**
- 1.12.3 Outdoor hydrant: _____ ; Quantity: _____
- 1.13 Overhead electrical drops: **X** ; Quantity: **3**
- 1.14 Overhead airdrops: **X**; Quantity: **1**
- 1.15 Compressed air for tools: **Yes**
- 1.16 Sinks: **1**; Where: **slop sink – rear of Apparatus Room**
- 1.17 Drench shower: **No**; Where: _____ (Note Decon Laundry!)
- 1.18 Lockable storage cabinets: **Needed** ; size: _____
- 1.19 Foam: **X**
 - 1.19.1 Details: **No Cabinet for Storage**
- 1.20 Other equipment: _____

- 1.21 Epoxy flooring: **No**
- 1.22 Wall construction type: **Block**
- 1.23 Assumed size: **3 bays**
- 1.24 Adjacencies: **None**

FIREMATIC SUPPORT

1A Mezzanine

- 1A.1 Storage: **Firematic material, old hose, cots, etc.**
- 1A.2 Size: _____ x _____ ; or _____ sq ft

2 Firematic Storage Room

- 2.1 Use: **Officer's Supply Closet**
- 2.2 Security: **??**
- 2.3 Size: **10 x 10**
- 2.4 Adjacencies: **Bay**

3 Officer's Supply Room

- 3.1 Use: **Radios, etc.**
- 3.2 Security: **Yes**
- 3.3 Size: **6 x 6**
- 3.4 Adjacencies: **Bay**

4 EMS Storage Room

- 4.1 Use: **EMS supplies**
- 4.2 Security: **????**
- 4.3 Size: **8 x 8**
- 4.4 Adjacencies: **Bay**

5 Engineers Work Room

- 5.1 Mechanic: _____; Type of work: _____
- 5.2 Workbench: **Yes**
- 5.3 Tool storage: **Yes**
- 5.4 Stationary power tools: **bench grinder & vise**
- 5.5 Air: **Yes**
- 5.6 Water: **Yes**
- 5.7 Location: _____
- 5.8 Size: **16 x 20**

6 DeCon/Laundry

- 6.1 Sink(s): **1** ; Foot Pedal: **Yes**
- 6.2 Gear washer/extractor: **Yes**
- 6.3 Gear dryer: **Yes???**
- 6.4 Clothes washer & dryer: _____
- 6.5 Ventilated gear racks: **Yes**
- 6.6 Drench shower: _____ ; Where: _____
- 6.7 Backboard/Etc. cleaning: _____
- 6.8 Holding tank: _____
- 6.9 Size: **219** sq ft
- 6.10 Adjacencies: **Bay & exterior**

7 Hazardous Waste Disposal

- 7.1 Location: **None - Needed**
- 7.2 Size: _____ x _____ ; or _____ sq ft
- 7.3 Comments: _____

8 Oxygen Storage Room

- 8.1 Size: **None** x _____ ; or _____ sq ft
- 8.2 Adjacencies: _____
- 8.3 Comments: **Needed**

9 Hose Storage

- 9.1 A room, or on the floor: **On Apparatus Room Floor**
- 9.2 Hose racks: **1** ; # _____ ; Size: **5 shelf x 8 Ft. Long**
- 9.3 Hose drying: **Yes**
- 9.4 Location: **Apparatus Room**
- 9.5 Size: **3 x 8**
- 9.6 Comments: _____

10 Janitor

- 10.1 Size: **8 x 9**
- 10.2 Adjacencies: _____

11 Apparatus Floor Uni-Sex Rest Rooms

- 11.1 Quantity: **1**
- 11.2 Fixture: **Sink, toilet & urinal? Yes**
- 11.3 Showers: **No**
- 11.4 Lockers: **No**
- 11.5 Size: **75** sq ft
- 11.6 Comments: _____
- 11.7 Adjacencies: _____

12 Radio Room

- 12.1 Location: **Adjacent to Apparatus Room**
- 12.2 View control: **Window to Apparatus Room**
- 12.3 Seating for how many: **3**
- 12.4 Door operator switches: **Yes**
- 12.5 Traffic device control: **Yes**
- 12.6 Light switches for app bay: **Yes**; Outside: _____
- 12.7 Internal paging system: **Yes**
- 12.8 Siren trigger: _____ ; Shutoff: _____ ; Siren location: _____
- 12.9 Computer equipment: **Yes**
- 12.10 Other equipment: **Chargers**
- 12.11 File cabinets: Yes ; Describe: _____
- 12.12 Wall mounted items: **Bulletin Board, Clock and map**
- 12.13 Rechargeable items (flashlights, plectrons): **Yes**
- 12.14 Lockable storage: _____
- 12.15 Size: **147** sq ft
- 12.16 Adjacencies: _____

ADMINISTRATION

13 Conference Room

- 13.1 Uses:
 - 13.1.1 **Training for up to 25 people**
 - 13.1.2 **Small meetings**
- 13.2 Seat how many: **12** at table; **18** at wall
- 13.3 Is there a workstation with a computer to be shared by all users: **Yes**
- 13.4 Size: **377** sq ft
- 13.5 Comments: **Furniture convertible from conference to classroom, drop down projector & screen**
- 13.6 Adjacencies: _____

14 Active Officers

- 14.1 Seat how many: **4**
- 14.2 Is there a workstation with a computer: **2 or more**
- 14.3 Size: **233** sq ft
- 14.4 Comments: _____
- 14.5 Adjacencies: _____

15 Civil Officers

- 15.1 Seat how many: **4**
- 15.2 Is there a workstation with a computer: **2 or more**
- 15.3 Size : **233** sq ft
- 15.4 Comments: _____
- 15.5 Adjacencies: _____

16 Records Storage

- 16.1 Location: **Near Office**
- 16.2 Size: **100** sq ft
- 16.3 Comments: _____
- 16.4 Adjacencies: _____

17 Uniform Storage

- 17.1 Location: _____
- 17.2 Size: **Current is 266** sq ft
- 17.3 Comments: **??? uniforms = ?? ft of pole, plus ?? helmets & ?? hats**
- 17.4 Adjacencies: _____

VOLUNTEER FIREFIGHTERS

18 Firefighters' Rest Rooms

- 18.1 Showers: **2 ??**
18.2 Lockers: **2 ??**
18.3 Other: _____
18.4 Comments: _____
18.5 Adjacencies: _____

19 Firefighter's Recreation Room

- 19.1 Number of chair seating: **20**
19.2 Couch: **Yes** ; seats how many: **6**
19.3 TV: **Yes** ; Size: _____
19.4 Card table: **Yes**; how many: **2**
19.5 Coffee maker: **Yes**
19.6 Microwave: **Yes**
19.7 Popcorn maker: _____
19.8 Bulletin board: **Yes** ; Size: **4 X 6**
19.9 Bar: **Yes**
19.9.1 Length: _____ ; seats: **12**
19.9.2 Beer cooler: **Yes** ; Size: _____
19.9.3 Sink: **Yes**; Size: **double**
19.9.4 Cold drinks: **Yes** ; Handled how: **cans**
19.10 Ice machine: **Yes** ; Size: **400 lbs**
19.11 Size: **749** sq ft
19.12 Adjacencies: _____
19.13 Comments: _____

20 Volunteer Firefighters Day Room (Same as Paid Day Room???)

Fire Station Program Document

Project Name: Beacon Fire Department - Career Members Comments

Program Meeting Date: _____

Printout Date: March 12, 2015

Filename: Fire Program Full.doc

A General Information

- A1. Number of Members; total: **12** ; active: **12** ; female: **0**; male:**12**
- A2. Typical Turnout: **12 sets in house**
- A3. On-Call: **0**

B Functional Activities in Building

- B1. Types of response: All Three Stations
 - B1.1. Fire: **X**
 - B1.2. EMS: **X**
 - B1.3. Heavy Rescue: **X**
 - B1.4. HAZ MAT: **X**
 - B1.5. Water Rescue: **X**
 - B1.6. Ambulance: **No** ; Transporting **?**
 - B1.7. Other: _____
- B2. Training activities in building:
 - B2.1. **Search & Rescue, Hose advancement, EMS**
 - B2.2. Who stays in building: **Paid staff, 1 per station**
- B3. Meetings:
 - B3.1. Type: **Union**; size: **12 people**; frequency: **Every 2 Months**
- B4. Misc. Activities
 - B4.1. **Fire prevention classes**
- B5. Access control:
 - B5.1. Will other fire companies park their apparatus in the bay under certain circumstances: **Yes**
 - .5.1.1. Describe: **under mutual aid for coverage to City of Beacon**

APPARATUS

1 Apparatus Bays

- 1.1 Number of vehicles: **5**; # of bays: **10**
 - 1.1.1 Name: **12** ; type: **Single**; length: _____ ; weight: _____
 - 1.1.2 Name: **55** ; type: **Single**; length: _____ ; weight: _____
 - 1.1.3 Name: **11/13**; type: **Double**; length: _____ ; weight: _____
 - 1.1.4 Name: **--** ; type: **Double**; length: _____ ; weight: _____
 - 1.1.5 Name: **45** ; type: **D/D** ; length: _____ ; weight: _____
 - 1.1.6 Name: **--** ; type: **D/D** ; length: _____ ; weight: _____
- 1.2 Type of bays: * **All drive-through bays to be double bays also**
 - 1.2.1 Drive-through: **Yes** ; quantity: **2**
 - 1.2.2 Double deep: * ; quantity: **6**
 - 1.2.3 Single deep: **Yes** ; quantity: **2**
- 1.3 Overhead doors:
 - 1.3.1 Front:
 - 1.3.1.1 Number: **6**
 - 1.3.1.2 Width: **14** ; Height: **16**
 - 1.3.1.3 Windows: **Yes**
 - 1.3.2 Rear:
 - 1.3.2.1 Number: **2**
 - 1.3.2.2 Width: **14**; Height: **16**
 - 1.3.2.3 Windows: **Yes**
- 1.4 Pedestrian doors:
 - 1.4.1 Number: **5**
 - 1.4.2 Locations: **1 per side & 1 on parking lot side**
- 1.5 Number of gear lockers: **Career** ; now: **12** ; later: **28 + 30 for volunteers**
 - 1.5.1 Location: **Against Wall**
- 1.6 Trench drains: **Yes** ; Layout: **Middle of each bay**
- 1.7 Wall mounted hose reels: **Yes** ; Quantity: **3 @ 100'**
- 1.8 Fume exhaust: **Yes**; Type: **Hose**
- 1.9 Truck fills:
 - 1.9.1 Overhead: **Yes** ; Quantity: **3**
 - 1.9.2 Wall hydrant: **Yes** ; Quantity: **2**
 - 1.9.3 Outdoor hydrant: **Yes** ; Quantity: **1**
- 1.10 Overhead electrical drops: **Yes** ; Quantity: **1/vehicle**
- 1.11 Overhead airdrops: **Yes** ; Quantity: **3**

- 1.12 Compressed air for tools: **No**
- 1.13 Sinks: **Yes** ; Where: **Slop, utility & decon in Bay**
- 1.14 Drench shower: **Yes**; Where: **In Bay** (Note Decon Laundry!)
- 1.15 Lockable storage cabinets: **Yes** ; size: **For App Maint & Tools**
- 1.16 Foam: **?**
- 1.17 Details: _____
- 1.18 Epoxy flooring: **Yes**
- 1.19 Wall construction type: **brick and block**
- 1.20 Assumed size: _____
- 1.21 Adjacencies: **Career Area & Radio Room**

FIREMATIC SUPPORT

1A Mezzanine – for ladder & rope training

1A.1 Size: _____ x _____ ; or _____ sq ft

2 Storage Room #1

- 2.1 Use: **Quartermaster**
- 2.2 Security: **Quartermaster Only**
- 2.3 Size: **20 x 20**; or **400** sq ft
- 2.4 Adjacencies: _____

3 Storage Room #2

- 3.1 Use: **FD Equipment**
- 3.2 Location: **Off apparatus floor**
- 3.3 Security: **Open**
- 3.4 Size: _____ x _____ ; or _____ sq ft
- 3.5 Adjacencies: _____

4 EMS Storage Room

- 4.1 Use: **Supplies, O2 Cascade**
- 4.2 Location: **Off apparatus floor**
- 4.3 Security: **Yes**
- 4.4 Size: **10 x 10** ; or **100** sq ft
- 4.5 Adjacencies: _____

5 **Engineers Work Room**

- 5.1 Mechanic: **Yes**; Type of work: **Equipment repair and maintenance**
- 5.2 Workbench: **Yes**
- 5.3 Tool storage: **Rolling/Lockable**
- 5.4 Stationary power tools: **Grinder**
- 5.5 Air: **Yes**
- 5.6 Water: **Yes**
- 5.7 Location: **Off apparatus floor**
- 5.8 Size: **15 x 15** ; or **225** sq ft

6 **DeCon/Laundry**

- 6.1 Sink(s): **Yes** ; Foot Pedal: **Yes**
- 6.2 Gear washer/extractor: **Yes**
- 6.3 Gear dryer: **Yes**
- 6.4 Clothes washer & dryer: **Yes**
- 6.5 Ventilated gear racks: **Yes**
- 6.6 Drench shower: **No**; Where: _____
- 6.7 Backboard/Etc. cleaning: **No**
- 6.8 Holding tank: **Yes**
- 6.9 Size: _____ x _____ ; or _____ sq ft
- 6.10 Adjacencies: _____
- 6.11 Special needs: **Red Bag Container**
- 6.12 Comments/Adjacencies: _____

7 **Air Room (SCBA)**

- 7.1 Location: **Off apparatus floor**
- 7.2 “Public” access: **No**
- 7.3 External feed lines: **Yes**
- 7.4 Sinks: **Utility**
- 7.5 Air compressor: **Eagle Air**
- 7.6 Filling station: **Eagle Air**
- 7.7 SCBA storage: **Yes**
- 7.8 SCBA repair: **Yes**
- 7.9 Air Bottles – Size & Quantity: **Up to 20**
- 7.10 Sound attenuation panels: **Yes**
- 7.11 Size: _____ x _____ ; or _____ sq ft
- 7.12 Comments: _____

8 Hose Storage

- 8.1 A room, or on the floor: **In room ??**
- 8.2 Hose racks: _____ ; # _____ ; Size: _____
- 8.3 Hose drying: **Mechanical**
- 8.4 Location: **Off Bay**
- 8.5 Size: _____ x _____ ; or _____ sq ft
- 8.6 Comments: _____

9 Apparatus Floor Rest Rooms

- 9.1 Quantity: **1unisex**
- 9.2 Fixture: **Sink, toilet & urinal**
- 9.3 Showers: **No**
- 9.4 Lockers: **No**
- 9.5 Other: _____
- 9.6 Comments: **Easy to clean (floor drain)**
- 9.7 Adjacencies: _____

10 Radio Room

- 10.1 Location: **Near Bay**
- 10.2 View control: **Yes**
- 10.3 Seating for how many: **6**
- 10.4 Door operator switches: **Yes**
- 10.5 Traffic device control: **If Applicable**
- 10.6 Light switches for app bay: **Yes** ; Outside: **Yes**
- 10.7 Internal paging system: **Yes**
- 10.8 Siren trigger: **Yes** ; Shutoff: **Yes** ; Siren location: **Only if we need one for disaster**
- 10.9 Computer equipment: **CAD – Desktop, printers, routers**
- Other equipment: **Fax, copier, shelving**
- 10.10 File cabinets: **Yes** ; Describe: _____
- 10.11 Wall mounted items: **File holders, shelves**
- 10.12 Rechargeable items (flashlights, plectrons): **Yes**
- 10.13 Lockable storage: **Yes**
- 10.14 Assumed minimum size: **10 x 10** ; or **100** sq ft
- 10.15 Adjacencies: _____

Fire Station Program Document

Project Name: Beacon Fire Department

Program Meeting Date: **11/10/05**

Printout Date: March 12, 2015

Filename: Fire Program Full.doc

A General Information

- A1. Number of Members; total: **85** ; active: **85** ; female: **2** ; male: **83**
- A2. Typical Turnout: **25**
- A3. On-Call: **0**
- A4. Type of entity:
- A4.1. Municipality: Type: **City**
- 501C.3: Describe Business & Social Structure:
- A5. Number of Companies or Departments involved: **3**
- A5.1. Names: **Beacon Engine #1**
- A5.2. **Tompkins Hose Company #1**
- A5.3. **W.H. Mase Hook and Ladder Co #1**
- A6. Date of Company monthly meeting: **first Tuesday**; Date of Dept monthly meeting:
- A7. Location: **All three stations**

B Functional Activities in Building

- B1. Types of response: All Three Stations
- B1.1. Fire: **X**
- B1.2. EMS: **X**
- B1.3. Heavy Rescue: **X**
- B1.4. HAZ MAT: **X**
- B1.5. Water Rescue: **X**
- B1.6. Ambulance ?; Transporting ?
- B2. Training activities in building:
- B2.1. **Yes, class and hands on**
- B2.2. Training activities on site:
- B2.3. **If Possible**
- B2.4. Other uses of apparatus bay:
- B2.5. Social events: **no**
- B2.6. Craft fairs: **no**
- B2.7. Sleeping Over: **no**
- B3. Standing by :
- B3.1. Daily: **Yes**

- B3.2. Emergency: **Yes**
- B3.3. Outsiders: **Yes**
- B4. Emergency Shelter: **Not as primary possibly as secondary**
 - B4.1. Who stays in building: **Paid staff, 1 per station**
 - B4.2. Special needs: **Bunk room, bath, storage space**
- B5. Firematic Business:
 - B5.1. Describe: **? Yes**
- B6. Social Business:
 - B6.1. Describe: **? Yes, Fire Company Activities**
- B7. Other:
 - B7.1. Describe:
- B8. Meetings:
 - B8.1. Type: **Each Company Meetings** ; size: **30-40 people** ; frequency: **Monthly**
 - B8.2. Type: **Committees** ; size: **10-20 people** ; frequency: **Varies**
- B9. Social Life:
 - B9.1. Daily recreation – describe: **TV, Pool Table**
 - B9.2. Periodic recreation – describe: **Various parties**
 - B9.3. Outdoor recreation – describe: **No**
- B10. Misc. Activities
 - B10.1. **Blood drives**
 - B10.2. **Community meeting room**
- B11. Access control:
 - B11.1. Electronic access: **Yes**
 - B11.2. Vendor's access to drop off material ?; Where:
 - B11.3. Will other fire companies park their apparatus in the bay under certain circumstances: **Yes**
 - .11.3.1. Describe: **under mutual aid for coverage to City of Beacon**
 - .11.3.2. Is their access to the building limited: **Yes**
 - .11.3.3. Describe: **Access to boys and communication room**

C Site

- C1. Who owns the road in front: **City**
- C2. Number of primary responder parking spaces needed : **10 per station**
- C3. Number of other parking spaces needed: **50 per station**
- C4. Recreation requirements (Pavilion, grill, patio, etc.): **yes all stations**
- C5. Utilities at site:
 - C5.1. Water: **X** ; Size: Sewer: **X** ; Size: _____
 - C5.2. Storm: **X** ; Size:
 - C5.3. Electric: **X** ; 3 phase:
 - C5.4. Gas: **X** ; Size:

- C5.5. Phone: **X**
- C5.6. Cable: **X**
- C6. Electric company : **Central Hudson**
- C6.1. Contact:
- C6.2. Follow-up assigned to:
- C7. Gas company: **Central Hudson**
- C7.1. Contact:
- C7.2. Follow-up assigned to:
- C8. Telephone company: **Verizon**
- C8.1. Contact:
- C8.2. Follow-up assigned to:
- C9. Cable company: **Cablevision**
- C9.1. Contact:
- C10. Alarm/Security company: **None**
- C10.1. Contact:
- C10.2. Follow-up assigned to:

<h2>APPARATUS</h2>

1 Apparatus Bays

- 1.1 Number of vehicles: **5** ; # of bays: **8**
- 1.1.1 Name: **Station 2** ; type: **3 bays** ; length : ; weight
- 1.1.2 Name: **Station 1** ; type: **1 bay** ; length: ; weight:
- 1.1.3 Name: **Headquarters**; type: **1 bay** ; length: ; weight:
- 1.1.4 Name: ; type: ; length: ; weight:
- 1.1.5 Name: ; type: ; length: ; weight:
- 1.1.6 Name: ; type: ; length: ; weight:
- 1.1.7 Name: ; type: ; length: ; weight: _____
- 1.1.8 Name: ; type: ; length: ; weight: _____
- 1.2 Type of bays:
- 1.2.1 Drive-through: **X** ; quantity: **2**
- 1.2.2 Double deep ; quantity:
- 1.2.3 Single deep: **X** ; quantity: **6**
- 1.3 Wash bay: **No**; Where: **Need more bay space (3 more)**
- 1.4 Plan for future expansion of bays: **Yes** # **3**

- 1.5 Overhead doors:
 - 1.5.1 Front:
 - 1.5.1.1 Number: **5**
 - 1.5.1.2 Width: **14** ; Height: **14**
 - 1.5.1.3 Windows: **Yes**
 - 1.5.2 Rear:
 - 1.5.2.1 Number: **2**
 - 1.5.2.2 Width: **14** ; Height: **14**
 - 1.5.2.3 Windows: **Yes**
 - 1.6 Pedestrian doors:
 - 1.6.1 Number: **1**
 - 1.6.2 Locations:
 - 1.7 Number of gear lockers: now: **none** ; later: **50**
 - 1.7.1 Location: **Apparatus floor or locker room**
 - 1.8 Signage requirements:
 - 1.9 Trench drains: Yes ; Layout: **To be determined**
 - 1.10 Wall mounted hose reels: **Don't have** ; Quantity: **Need 3**
 - 1.11 Fume exhaust: **Yes**; Type: **To be determined** ; Later:
 - 1.12 Truck fills:
 - 1.12.1 Overhead: **Yes** ; Quantity: **All**
 - 1.12.2 Wall hydrant: **Yes** ; Quantity **2**
 - 1.12.3 Outdoor hydrant: **Yes** ; Quantity: **1 at each station**
 - 1.13 Overhead electrical drops: **Yes** ; Quantity: **All**
 - 1.14 Overhead airdrops: **Yes** ; Quantity: **All**
 - 1.15 Compressed air for tools: **Yes**
 - 1.16 Sinks: **Yes** ; Where: **Each Side of the building**
 - 1.17 Drench shower: **No**; Where: (Note Decon Laundry!)
 - 1.18 Lockable storage cabinets: **Yes** ; size:
 - 1.19 Foam: **Yes**
 - 1.19.1 Details: **Need more storage** at all stations
- Other equipment:
- 1.20 Epoxy flooring: **Yes**
 - 1.21 Wall construction type: **brick and block**
 - 1.22 Assumed size:
- Adjacencies:

FIREMATIC SUPPORT

1A Mezzanine

1A.1 Size: **20 x 100** ; or **2000** sq ft

2 Storage Room #1

2.1 Use: **Gear lockers**

2.2 Location: **Off apparatus floor**

2.3 Security: **No**

2.4 Size: **25 x 25** ; or **625** sq ft

2.5 Adjacencies:

3 Storage Room #2

3.1 Use: **Need quarter master**

3.2 Location: **Off apparatus floor**

3.3 Security: **Yes**

3.4 Size: **13 x 15** ; or **225** sq ft

3.5 Adjacencies:

4 EMS Storage Room

4.1 Use: **Yes, equipment and drugs**

4.2 Location: **Off apparatus floor**

4.3 Security: **Yes**

4.4 Size: **18 x 20** ; or **360** sq ft

4.5 Adjacencies:

5 Engineers Work Room

5.1 Mechanic: **Yes**; Type of work: **Light maintenance building and rigs**

5.2 Workbench: **Yes**

5.3 **Tool storage:** **Yes**

5.4 Stationary power tools: **Yes**

5.5 Air: **Yes**

5.6 **Water:** **Yes**

5.7 Location: **Off apparatus floor**

5.8 Size: **12 x 15** ; or **225** sq ft

6 DeCon/Laundry

- 6.1 Sink(s): **Yes** ; Foot Pedal: **Yes**

Appendix C - Building Area Spreadsheets

Beacon Fire Department - Summary of Program Sizes

	One Company w/ Departmental Spaces	Two Companies w/ Departmental Spaces	Three Companies w/ Departmental Spaces
One Story			
Building Size	24,500	27,174	34,090
Apparatus Bay	5,709	5,709	9,135
Firematic Support & Mezzanine	3,339	3,765	4,790
Office & Public Area	15,452	17,701	20,165
Footprint (1)	23,300	25,974	32,890
Min Lot Size In Acres (100 cars)			1.95
Preferred Lot Size			2.45
Two Stories			
Building Size	25,870	28,544	35,460
Apparatus Bay	5,709	5,709	9,135
Firematic Support & Mezzanine	3,339	3,765	4,790
Office & Public Area	16,822	19,071	21,535
Footprint (2)	16,312	17,842	23,396
Min Lot Size In Acres (100 cars)			1.92
Preferred Lot Size			2.42
Three Stories			
Building Size	26,450	29,124	36,040
Apparatus Bay	5,709	5,709	9,135
Firematic Support & Mezzanine	3,339	3,765	4,790
Office & Public Area	17,402	19,651	22,115
Footprint (2)	14,475	15,123	20,154
Min Lot Size In Acres (100 cars)			1.76
Preferred Lot Size			2.26

- Notes:** (1) Footprint is total building size minus the mezzanine.
 (2) Refer to the detailed space usage analysis spreadsheets.
 (3) Drawing L4 depicts a one story building on a 2.9 acre "suburban" site.

Relative Change in Areas

Appendix F - Site Observations

On 2/27/06 Chief Joseph, and Lieutenant Dexter brought me to see 13 locations being considered. These locations are:

1. South Avenue Park
2. The Elks Club
3. Sargent School Access Road, West Side
4. Sargent School Access Road, East Side
5. Former Ski Lodge
6. Left of, and adjacent Madame Brett
7. Memorial Park
8. Chem Prene
9. Adjacent City Hall
10. North Cedar Street
11. Old DMV site on Main Street
12. Brandley Dye Works
13. 578 Main Street

Lieutenant Dexter provided copies of aerial maps from the county system, as well as surveys of the Brandley Dye Works and the former ski lodge. In evaluating the sites, we need to keep in mind that they must, at a minimum, be big enough to hold the fire station and the required parking. The smallest site plan for all three companies (L3) required 76,791 sq ft. This also required a 3 story building. The 2 story version (L2) required 83,469 sq ft. For a site that would only hold Mase and Engine #1(L6), which assumes Tompkins stays where it is with the large meeting room, the site need 57,525 sq ft.

My observations of the sites were as follows:

1. **South Avenue Park** – The parcel fronts on South Avenue, and backs onto Wolcott Avenue, which is higher. There is a clear opening between the basketball and tennis courts of approximately 240 feet, and the depth to the path that runs parallel to South Avenue is approximately 285 feet. This provides approximately 68,400 sq ft of area. There is a possibility that a curb cut on Wolcott in the vicinity of the bocci courts could provide access to the rear portion of the building.
 - The site seems well suited for a for a 2 story station for Mase & Engine #1 (L6).
 - The site is well located within the city, but probably too close to Tompkins to house Mase & Engine #1 in a separate facility..
 - The site can undoubtedly support a central station for all three companies subsequent to a more detailed site analysis.
 - The site is City owned.
 - The site offers an amenity package potential that could enhance volunteer recruitment and retention.
2. **The Elks Club** – The parcel fronts Wolcott Avenue, opposite the entrance to the Sargent School access road. The parcel has beneficial frontage on Fulton Avenue, and frontage on Tioronda Avenue, which is probably not useful due to the low elevation of Tioronda. If the Elks remain on the site, and relinquish the frontage staring 50 feet in front of their building, the reasonable developable area would be approximately 220 feet deep, and 250 feet wide, or 55,000 sq ft.

- The site is only usable for a 2 story station for Mase & Engine #1 (L6) unless the Fire Department obtains the entire parcel.
- It may be possible to house all three companies if the Department obtains the ability to use the Elks parking area.
- The site is adequately located within the City.
- The site would need to be acquired.
- The site has a major vulnerability in its location opposite the school access road entrance. This represents both a significant potential delay in response, and a hazard potential associated with the school children.
- The parcel would be greatly enhanced as a site for a fire station if the entire parcel were purchased from the Elks.
- It would be highly recommended to install traffic control at the corner of the access road and Wolcott Avenue

3. **Sargent School Access Road, West Side** – The parcel has approximately 250 feet of frontage on the Sargent School access road, and a depth of approximately 300 feet, or 75,000 sq ft. The parcel rises gently from the access road at a slope that would not interfere with use for a fire station.

- The site is usable for a 2 story station for 2 or 3 companies (refer to site plans L1 & L2), but would be significantly improved if social parking could be located across the access road.
- The site is adequately located within the City.
- The site is owned by the School District and would have to be acquired.
- The site has a major vulnerability in its location opening onto the school access road entrance. This represents both a significant potential delay in response, and a hazard potential associated with the school children.
- There are no utilities currently in the access road, and would need to be extended.
- It would be highly recommended to install traffic control at the corner of the access road and Wolcott Avenue.
- It might be possible to relieve some of the traffic problem by constructing a separate access road adjacent the school access road.

4. **Sargent School Access Road, East Side** - This parcel has a frontage along the school access road of at least 250 feet. It has a depth of approximately 300 feet to Tioronda Avenue, but this is compromised by an approximate 40 drop.

- The site slope to Tioronda is a challenge. However, with further study, it might be determined that an access road can successfully be cut from Tioronda, starting close to Wolcott.
- The site might be usable for a 2 story station for 2 or 3 companies (refer to site plans L1 & L2). This will require further study, needing topographic maps. This would be significantly improved if social parking could be located across the access road.
- The site is adequately located within the City.
- The site is owned by the School District and would have to be acquired.
- The site has a major vulnerability in its location opening onto the school access road entrance. This represents both a significant potential delay in response, and a hazard potential associated with the school children.

- There are no utilities currently in the access road, and would need to be extended.
 - It would be highly recommended to install traffic control at the corner of the access road and Wolcott Avenue.
 - It is our initial recommendation that if the access road is considered, the station should be on the West side.
5. **Former Ski Lodge** – This 6 acre parcel has over 400 feet of frontage along Howland Avenue, and a usable depth of approximately 200 feet for a building, with land behind it available for additional parking & recreation, for at least 87,000 sq ft.
- The site is usable for a 2 story station for 2 or 3 companies (refer to site plans L1 & L2), and possibly for a one story building (see plan L4 & L4A).
 - The site seems easily developable due to slopes and soils.
 - There is no storm water collection at the site
 - The site is located near the extreme Southern end of the service area. This is likely to increase the response time both to and from the station.
 - The site is City owned.
 - The site offers an amenity package potential that could enhance volunteer recruitment and retention.
6. **Left of and adjacent Madame Brett** – This parcel has approximately 200 feet of frontage and at least 250 feet of usable depth, for 50,000 sq ft.
- The site is tight for a 2 story station for 2 companies; with a limit of approximately 40 parking spaces (refer to site plan L5 and remove one of the side parking lots).
 - The site is well located within the city.
 - The site fronts on a narrow street.
 - The site is not owned by the City.
 - Acquisition might be difficult.
 - Screening would need to be developed adjacent the Madame Brett property.
7. **Memorial Park** – This parcel, when formerly evaluated for the Police Department, had 196 feet of frontage, and an average depth of 226 feet, for 44,390 sq ft. Expanding the width of the site to a total of 370 feet would provide 83,620 sq ft.
- The site is usable for a 2 story station for 3 companies (L2).
 - The site seems easily developable due to slopes and soils.
 - The site does not seem to be currently used for park purposes.
 - Water and sewer have been stubbed into the site.
 - The site is City owned.
 - There may be existing deed restrictions, and/or a waiver may be needed from the NYS legislature.
 - There may be political opposition to the use of this site, perhaps related to a prior attempt to use the site for courts.
 - The site offers an amenity package potential that could enhance volunteer recruitment and retention.
8. **Chemprene** – This parcel fronts on Townsend Street at the corner of Desoto. It contains approximately 557 feet parallel to Townsend, and has a depth of approximately

260 feet, for 114,820 sq ft. There is a possibility that an additional means of egress can be obtained as an easement to travel along the internal road structure of Chemprene.

- The site is large enough for any development plans.
- The site offers an amenity package potential that could enhance volunteer recruitment and retention.
- The site would need to be acquired.
- The site is located near the extreme Northern end of the service area. This is likely to increase the response time both to and from the station.

9. **Adjacent City Hall** – This parcel has approximately 500 feet of frontage along Wolcott Avenue, with a depth varying from approximately 200 feet to 340 feet. It is difficult to state what the usable area is due to its severe topography.

- The site is below the level of the frontage road, and falls away steeply from the road
- The development potential of the site is severely limited due to the slopes.
- It is currently unclear that a usable fire station can be built on this parcel
- The site is well located within the city.
- The site is City owned.

10. **North Cedar Street** – This parcel has approximately 100 feet of frontage, and a depth of 250 feet. There is an adjacent parcel of approximately 50 foot width that would bring the entire parcel frontage to 150 feet, for 37,500 sq ft.

- The site is substantially smaller than what has been recommended in the study to date. We do not believe that a station for more than one company can be built on it.
- The site is well located within the city.
- The site fronts on narrow streets
- The site is not owned by the City.

11. **Old DMV site on Main Street** – This parcel has approximately 163 feet of frontage along Main Street and a depth of approximately 200 feet, for 32,600 sq ft.

- The site is substantially smaller than what has been recommended in the study to date. We do not believe that a station for more than one company can be built on it.
- The site is well located within the city.
- The site is not owned by the City.
- The City would lose downtown parking.

12. **Brandley Dye Works** – This parcel has approximately 140 feet of frontage on East Main Street and 212 feet of frontage on Leonard Street. It contains roughly 2 acres.

- The site contains two buildings that might be renovated, containing 21,000 gross square feet of space.

- The site seems to be able to adequately accommodate a central fire station to house all 3 companies along with parking for approximately 88 cars (see plan L17).
- The site is well located within the city.
- The site is not owned by the City.
- As a former industrial site, further consideration/ investigation would have to be done to determine the potential for remediation.
- Renovation of this site would have great significance for the redevelopment of this portion of the City.
- The site's adjacency to the Fishkill Creek and the footbridge could create an amenity to enhance recruitment and retention as well as an amenity for the general public.

13. **578 Main Street** – This parcel has approximately 270 feet of frontage on Ackerman Street and a depth of approximately 200 feet to Herbert Street, for 54,000 sq ft.

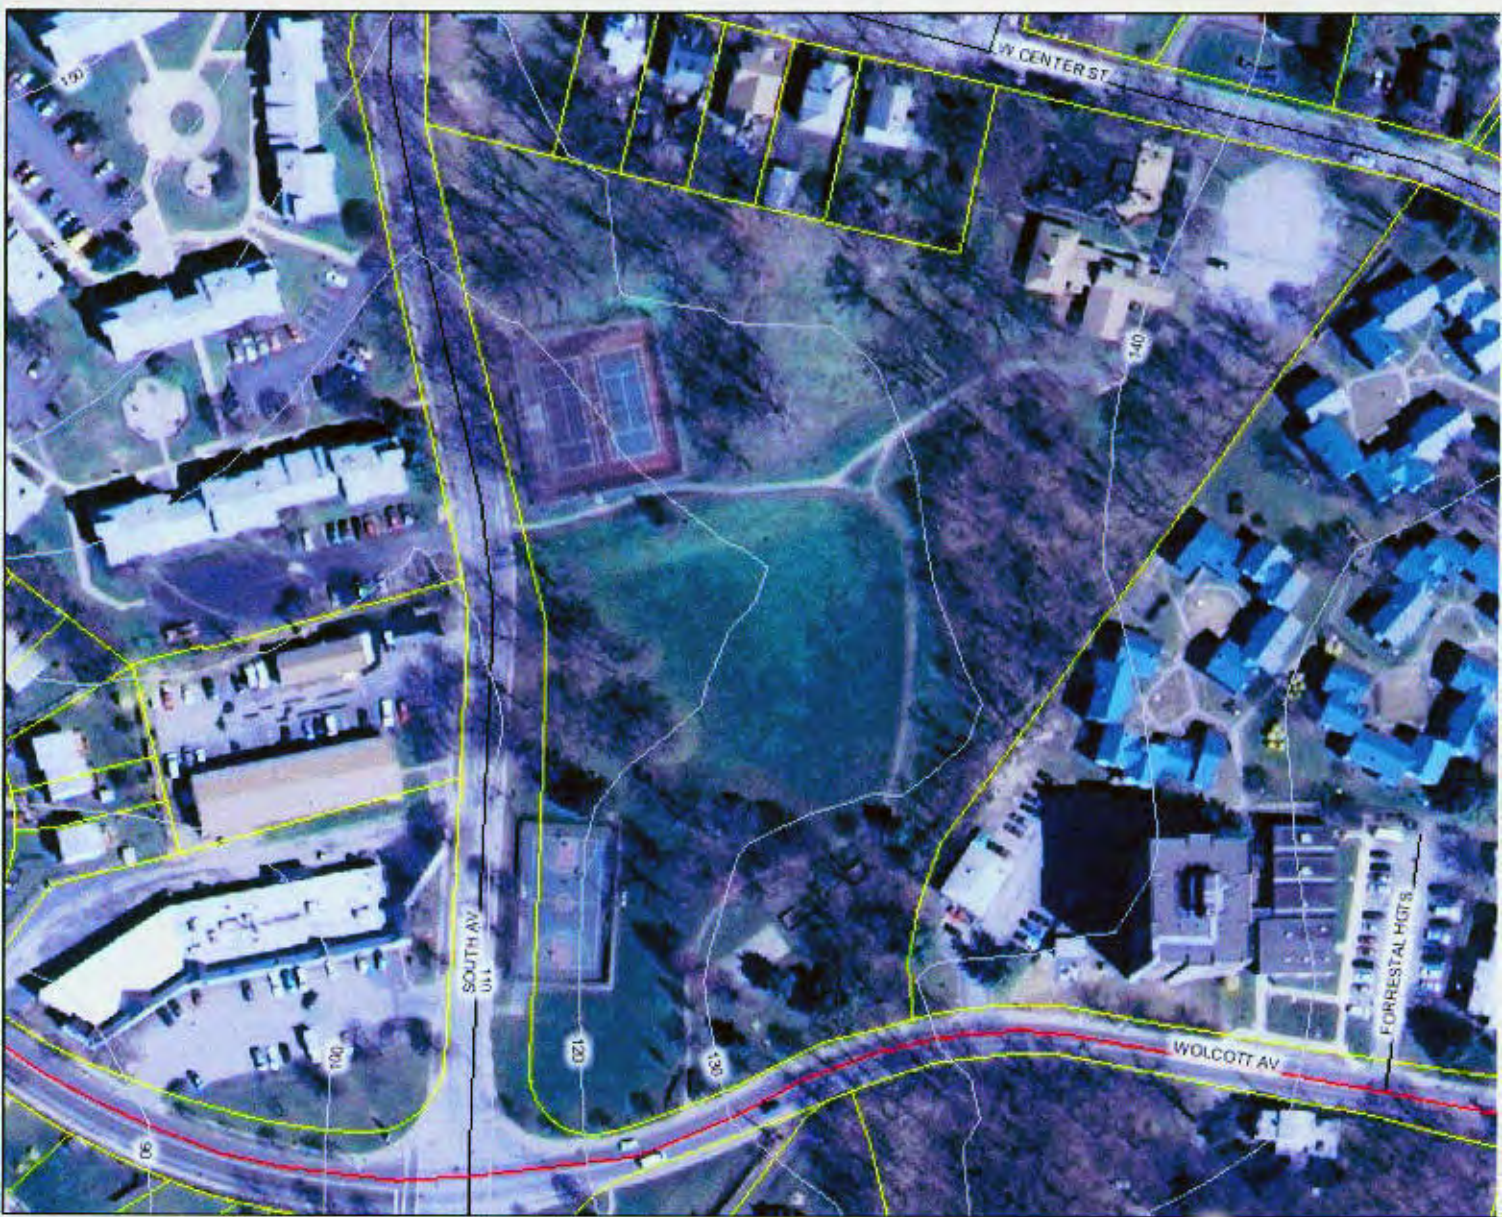

- The site may be large enough to hold Mase and Engine #1(L6).
- The site is well located within the city.
- The site appears to be located within a flood plain
- Demolition costs could be significant
- Parking would need to be located across the street and across the railroad tracks, delaying response time.
- Retaining walls would need to be built.
- The site is not owned by the City.

14. **Liberty, East Main & Spring Streets** – This parcel has approximately 226 feet of frontage on Spring Street, 63 feet on Liberty 205 feet on Liberty (assuming the acquisition of the adjacent parcel), with 24,600 sq ft.

- The site is only usable as a replacement location for Engine #1 (see plan L16).
- Building a new station for Engine #1 would max out the site and there would
- The site is a former gas station and may have environmental issues
- The site is owned by the fire company and would need to be acquired by the City.
- The adjacent residential parcel would need to be acquired and demolished.
- Parking would be extremely tight, and limited to 15 spaces.
